

Instructions: 1. **Please attach sail measurement forms and cruising credit declarations to this form**

2. Application will not be processed without owner and measurer signatures

3. Class rules regarding sails and penalties can be found at www.phrf-le.org

4. Note any modifications from original boat.

5. Attach any previous certificates or class measurement forms if available

6. Mail or e-mail completed form with fees to the PHRF office, normal process time is 3 weeks

7. New designs to PHRF-LE database require committee hearing resulting in a delay of certificate issuance

8. Payment is by paper check, Venmo (Friends and Family), and Credit Card at <https://square.link/u/hTfe3Gqy>

CRUISING CREDITS
CRUISING CREDIT APPLICATION MUST ACCOMPANY THIS FORM
Measurement from sailmaker MUST ACCOMPANY THIS FORM

- ROLLER FURLING CREDIT**
- ☐ **CLASS 1 +3** - Two sails; one must be 110% or less; Mylar, pentex, polyester, Dacron , kevlar
 - ☐ **CLASS 2 +6** -One headsail; woven Dacron or woven polyester; 4.5 oz. UV cover
 - ☐ **2 BLADE FIXED PROP CREDIT+6** In aperture props (i.e. Tartan 27) and sail drives do not qualify
 - ☐ **3 BLADE FIXED PROP CREDIT+12** In aperture props (i.e. Tartan 27) and sail drives do not qualify
 - ☐ **ROLLER FURLING MAIN AT MAST +6**

¹ Foot roach is defined as the extra sail area that falls below an imaginary horizontal straight line drawn from the tack to the clew.

² The foot roach measurement is the imaginary vertical line of the extra sail area from the midpoint of the sail.

NOTES

Note there are both minimum and maximum mid-girth restrictions along with minimum restrictions on spinnakers. Consult the class rules for additional details. Mainsails need further measurements including HB,MGT, MGU, MGM, MGL.

Modifications

| | |
|-----|------------|
| HB | 1"=0.08' |

CRUISING CREDIT APPLICATION

I have checked below the cruising credits I wish to take for the current sailing season. A sail measurement form must accompany this application if applying for roller furling credits. I understand that only ONE change will be permitted during the season and that it will take 4-8 weeks from receipt by the PHRF-LE secretary for the new certificate to be issued. There will be NO EXCEPTIONS.

☐ **RF Credit- Class 2 +6 sec/mi** - Limited to one headsail* constructed of woven Dacron or other polyester fibers with a minimum 4oz fabric UV cover on the leech and foot of the sail. The foot roach requirement of 2% of LP was removed effective 1/1/2025.

☐ **RF Credit- Class 1 +3 sec/mi** - Boat is limited to using 2 headsails*; the 2nd sail must be 110% or less that have been qualified for the current year. No limitations on sail materials.
For example, if you have roller furling sails registered from a previous year and replaced it with a new sail, the old sail can no longer be used for racing. In addition, if you previously registered a 135% sail as your largest headsail and purchased a new 155% sail, you cannot use the 135% sail for racing as it is not < 110%. If your sail inventory has a 135%, an old 155%, and a new 155% that was registered for the roller furling credit, you cannot use the 135% or the old 155% if the air is up in order to 'save' the new one from breaking down. The foot roach requirement of 2% of LP was removed effective 1/1/2025.

*Not including storm jibs as defined in ISAF Offshore Special Regulations 4.26.

☐ **Roller Furling Main at Mast +6 sec/mi**

☐ **2 Blade Solid Propeller +6 sec/mi**

☐ **3 Blade Solid Propeller +12 sec/mi**

Please complete the following information. Do not leave any blanks as this will hold up your certificate.

Boat Name _____ Sail # _____ Date Sail was Made _____

The PHRF-LE Committee has revised the cruising credits in reference to the roller furling rules. The proposed credits for roller furling are as follows:

GENERAL QUALIFICATIONS

1. The foot roach requirement of 2% of LP was removed effective 1/1/2025.
2. The bottom of the roller furling drum must be above deck and it must be able to furl all qualified headsails in a normal manner.
3. Qualified roller furling sails must be in the luff groove for the full luff of the sail, attached to a swivel at the head of the sail and to the drum swivel at the tack.
4. No battens of any kind are allowed in qualified roller furling headsails, except battens will be allowed in jibs of 100% of J dimension or less
5. For Class 2, sail changes from one qualified RF sail to a second qualified RF sail are allowed during the race provided that the changed sail is attached in the manner stated in point 3 and is the registered <110% sail.
6. Qualified RF sails must exhibit the appropriate PHRF-LE label in the area of the tack. The labels will be mailed from PHRF-LE upon completion of the CRUISING CREDIT Application and approval from PHRF-LE. A sail without a label is not a legal sail and thus could be protested by your competitors.
7. Roller furling credits for boats designed as cutters will be addressed by the committee on an individual basis.
8. Once you receive your credits, you must race with the qualified RF configuration. Notification and acknowledgement to the PHRF-LE committee is required for all changes. Switching back to a non-RF configuration is allowed only once during the season with no return to RF credits allowed for the rest of the season.
9. *Violation of the RF cruising credit rules is a serious offense. Upon sustained protest, violators will be disqualified from the race and/or series in which the violation occurs. Additionally, the PHRF-LE committee may revoke future cruising credits and review the protest for further disciplinary action by PHRF-LE.*

CREDITS

RF Credit- Class 2 +6 sec/mi

Limited to one headsail constructed of woven Dacron or other woven polyester fibers with a minimum 4oz fabric UV cover on the leech and foot of the sail.

RF Credit- Class 1 +3 sec/mi

Boat is limited to using two headsails*; the 2nd sail must be 110% or less that have been qualified for the current year. No limitations on sail materials.

For example, if you have roller furling sails registered from a previous year and replaced it with a new sail, the old sail can no longer be used for racing. In addition, if you previously registered a 135% sail as your largest headsail and purchased a new 155% sail, you cannot use the 135% sail for racing as it is not < 110%. If your sail inventory has a 135%, an old 155%, and a new 155% that was registered for the roller furling credit, you cannot use the 135% or the old 155% if the air is up in order to 'save' the new one from breaking down.

*Not including storm jibs as defined in ISAF Offshore Special Regulations 4.26
